

Detail to Dataview by Marcel Rottmann <marcel.rottmann@kronos.com>

To use the Detail Genie Migrator follow these steps:

1. If this is your first time using the APIs in the ConfigEditor, click Add Connection. Otherwise you can proceed directly to step 2.

d. Add in all of the details you are prompted for and ensure you have entered a memorable name.
Then click Submit.

- 2. Download one or more Holiday Profiles from Workforce Dimensions via Setup Data Manager.
- 3. Save the downloaded file and choose the .zip file in the UI.

4. Click the Refresh Data from File button

Enter .Zip File Name Here

Choose File export08-...20849.zip

Refresh data

Refresh

5. Make any changes to any columns which are not greyed out that you wish, but you can just proceed to the next step.

6. Click Upload, to upload your data to the tenant selected in the connection drop down.

Additional Features Guide:

1.Search

- When you start typing into the search bar, you will see a selection highlighted.
- cells, once you have selected the cells you want to edit either click the add or the remove button.
